

<b>Hazards</b>	
<b>Tools/Equipment</b>	rags, container to transport strainer basket to cleaning station
<b>Employee Group(s)</b>	Facilities Management – Central Heating Plant

**Required PPE:**

Safety Shoes

Eye Protection

Ear Protection

Gloves

**SAFE WORK PRACTICES**

- Do not perform the procedure or operate the equipment until you have been appropriately trained and authorized to do so by your supervisor.
- Inspect required personal protective equipment (PPE) and replace if required.

**PROCEDURE**

1. Fish oil pumps – move handle on top of strainer to opposite side to put clean strainer in service.
2. Bunker pumps – loosen tension of top of strainer handle and move handle to opposite side to put clean strainer in service. Tighten down handle to secure in place.
3. Check strainer “in service” for any leaks.
4. Loosen “out of service” basket cover and remove basket.
5. Transport basket to cleaning station and clean.
6. Replace basket in strainer and fill with diesel or proper fluid.
7. Bolt cover back in place.
8. Leave strainer out of service until required.

---

*NOTE: All PPE, tools and equipment shall be used in accordance with provincial OH&S legislation, manufacturer's specifications, applicable standards and codes of practice.*
